

## Seattle Permits

— part of a multi-departmental City of Seattle series on getting a permit

## List of Tree Service Companies with an Annual Permit

**Please Note: Neither the City nor this department endorses these firms or assumes liability for their services.**

The fact that this department furnished you this list of contractors does not in any way mean that you are restricted to this list. The work they perform must be done in accordance with the City's guidelines and specifications. Any contractor you select who can perform the work according to City of Seattle guidelines and specifications will be acceptable to the City.

The following is a list of tree service contractors who have a permit authorizing operation of equipment in the right-of-way (cannot impede traffic, and must have insurance and take precautions to assure pedestrian safety). The \$135.00 permit fee will be waived in some instances if you contract with any one of the following listed companies.
